

HWGW – A pull-out bed for life

Halbe Wahrheit, ganze Wahrheit (Halftruth Wholetruth) is not as complicated as it seems.
Two identical bed frames made of solid wood can be fitted together or pulled apart, allowing use as two single beds or one double bed. This flexibility makes our bed a reliable companion in all kinds of life situations. It is crafted from domestic hardwoods, metal-free with wood connectors.
Halftruth Wholetruth received an award at the 2003 Handwerk+Form competition. The jury commented: “Using only few elements, the design displays balanced proportions and meticulously crafted finesse.”
Additional mattress options (currently only on request)
